Subject: Start Submittal : Novo Nordisk : Divya Pramod : Operational Data Steward : NNIJP00007830 : Plainsboro, NJ {Hybrid}

Hello Akanksha,

Start Submittal : Novo Nordisk : Divya Pramod : Operational Data Steward : NNIJP00007830 : Plainsboro, NJ {Hybrid}

<u>Candidate Information</u>	<u>Details</u>
<u>Candidate Name</u>	<u>Divya Pramod</u>
<u>Current Location</u>	<u>East Windsor, NJ 08520</u>
<u>Availability for Interview</u>	<u>24 48 hours prior notice</u>
<u>Availability to Start</u>	<u>Immediately</u>

Agency Notes:

- Divya brings hands-on experience in high-volume, accuracy-driven data entry within a healthcare/pharmacy environment, where precision and compliance are critical.
- She has proven expertise in data validation, deduplication, and error tracking, ensuring strong data integrity and significantly reducing inconsistencies.
- She has direct experience working with ERP systems (BestRX, Framework) and managing structured datasets, making her highly adaptable to new tools and systems.
- She has improved operational efficiency by 30% by automating repetitive data entry and reporting tasks, demonstrating both initiative and process improvement mindset.
- She has strong Excel skills including pivot tables and data models, enabling her to analyze and manage large datasets effectively.
- She has experience collaborating cross-functionally with pharmacists and operations teams, helping identify discrepancies and streamline workflows.
- She also brings prior IT/Oracle production support experience, giving her a strong technical foundation and ability to work in structured, system-driven environments.

Why is this candidate a Good Fit?**1. Strong Healthcare Data Operations Experience**

Experienced in managing pharmacy and healthcare operational data, including prescription validation, inventory tracking, and compliance-driven data accuracy within a high-volume pharmacy environment.

2. Hands-on Data Quality & Stewardship Work

Proven track record of ensuring data integrity through deduplication, validation, and discrepancy resolution, directly supporting clean and reliable datasets for operational decision-making.

3. Advanced Excel & Reporting Skills

Skilled in Excel-based data management including pivot tables, data models, and reporting automation, enabling efficient analysis and transformation of large datasets.

4. High-Volume Data Processing Expertise

Comfortable working in fast-paced, high-volume environments with continuous data entry and updates, maintaining accuracy while handling large-scale operational datasets.

5. ERP & Multi-System Experience

Hands-on experience working with ERP and pharmacy automation systems such as BestRX, Framework, Oracle applications, and robotic dispensing systems, ensuring smooth cross-system data flow and integrity.

6. Process Improvement & Automation Mindset

Demonstrated ability to identify inefficiencies and implement automation in reporting and data entry processes, resulting in measurable productivity improvements (up to 30%).

Interview availability :

Available any day within 24hrs of notice.
